# Prosthetics Inventory Package (PIP)

## Overview

---

### Software description

The Prosthetics inventory software (also known as the Prosthetics Inventory Package or “PIP”) tracks quantities of prosthetic items located in the Prosthetics Sensory and AIDS Service (PSAS) inventory of each facility.

The PIP system using bar coding provides the means to do the following:

- Manages the inventory data using barcode scanner equipment
- Provides for faster data entry with scanning information of labels
- More accurate data entry with scanning of HCPCS Codes
- Sends a mail message when stock is low
- Automatically calculates stock quantities when stock is ordered or issued.

---

### Patch RMPR\*3\*61

Introducing <sup>1</sup>Patch RMPR\*3\*61 which provides a new **Prosthetics Inventory Main Menu** and new **Inventory Reports Menu** options. This patch also provides barcode printing and reader functionality.

---

### WARNING

**WARNING:** Do NOT install this patch (or any patch) during the first week of the month as this will affect the Prosthetic Inventory Package statistics.

---

### Installation of Patch RMPR\*3\*61

Patch RMPR\*3\*61 is a large patch that involves careful setup PRIOR to installation and data conversion.

**This is extremely important:** Please review this **Prosthetics Inventory Package (PIP) User Manual** and all other documents relating to Patch RMPR\*3\*61 before proceeding with the installation including the following:

- Forum Patch Module description
- Prosthetics Inventory Package (PIP) Implementation Guide
- Prosthetics Inventory Package (PIP) Lessons Learned
- Prosthetics Purchasing - Stock Issues User Manual.

Additionally, the documents: **Inventory User Manual**, **Stock Issues User Manual** and **Lessons Learned** should be provided to end users with the suggestion that they be reviewed. Several major changes to the software are being introduced with this patch and the smoothness of adapting to these changes is directly related to end users having and reading these documents.

## Overview, Continued

### Ordering/ Receiving Inventory

This patch is NOT for ordering or receiving inventory.

The intention of this patch is to disperse inventory to the 2319. You cannot order an item from IFCAP using the Prosthetics Inventory Package (PIP) using the **Order Item from Supply or Vendor (OI)** option since it is not part of IFCAP. You must use GIP or IFCAP.

The **Order Item from Supply or Vendor (OI)** is an option to record an Item that has been ordered. Whenever you place an order, use this option to update the quantity of the stock ordered. This option works in conjunction with the **Receive Item from Supply, Vendor or Patient (RC)** option.

**Note:** The **Order Item from Supply or Vendor (OI)** option is not associated with IFCAP. This option will not automatically order an item from Supply or Vendor.

## Accessing the Inventory Main Menu

### Menu description

The **Pros Inventory Main Menu** is found under the **Prosthetic Official's Menu** and the **Prosthetic Clerk's Menu**. The Prosthetics Inventory software also provides reports on the status of the inventory.

## Inventory Option Descriptions

---

|   |  |
|---|--|
| <b>Add Inventory LOCATION or ITEMS (AE)</b>             | The <b>Add Inventory LOCATION or ITEMS (AE)</b> option is used to set-up and maintain Prosthetic locations and inventory items used by the inventory software. All <u>new</u> locations and inventory items are entered using this option.   |
| <hr/>   |  |
| <b>Edit Inventory Items (EI)</b>                        | Any changes you need to make to a Prosthetic inventory Item must be made through the <b>Edit Inventory Items (EI)</b> option. You can only edit an Item that has already been set-up (entered through the <b>Add Inventory LOCATION or ITEMS (AE)</b> option).   |
| <hr/>   |  |
| <b>Edit Inventory Location (EL)</b>                     | Any changes you need to make to the Prosthetic Locations must be made through the <b>Edit Inventory Location (EL)</b> option. You can only edit a Location that has already been set-up. You can also edit an existing HCPCS.  |
| <hr/>   |  |
| <b>Deactivate Inventory Location (DE)</b>               | The <sup>1</sup> <b>Deactivate Inventory Location (DE)</b> option allows you to deactivate an inventory Location. Deactivating a Location also deactivates <b>all</b> the HCPCS associated with that Location. This option requires the user to own the RMPRMANAGER key.                                   |
| <hr/>   |  |
| <b>Order Item from Supply or Vendor (OI)</b>            | The <b>Order Item from Supply or Vendor (OI)</b> is an option to record an Item that has been ordered. Whenever you place an order, use this option to update the quantity of the stock ordered. This option works in conjunction with the <b>Receive Item from Supply, Vendor or Patient (RC)</b> option. |
|   | <b>Note:</b> This option is not associated with IFCAP. This option will not automatically order an item from Supply or Vendor.   |
| <hr/>   |  |
| <b>Receive Item from Supply, Vendor or Patient (RC)</b> | Whenever you receive ordered items, use the <b>Receive Item from Supply, Vendor or Patient (RC)</b> option to record and update the quantity of the stock received.  |
|   | Receiving an item in Supply through the IFCAP package does not update the Prosthetics Inventory module. This option has to be done separately for an item to be received and recorded in the Prosthetics module.   |
| <hr/>   |  |
| <b>Transfer Stock Between Locations (TR)</b>            | If you have a quantity of stock in one location that you would like to show (transfer) as being in another location, use the <b>Transfer Stock Between Locations (TR)</b> option. You can transfer all quantities or certain quantities.   |

## Inventory Option Descriptions, Continued

---

**Reconcile Item Balance (UP)** Use the **Reconcile Item Balance (UP)** option to reconcile any differences determined in balances between a physical count and the quantity on-hand shown by the system. This option should only be used for existing items and is only used to record quantities.

Balances can be checked by using the report options:

- Print Current HCPCS Balance by HCPCS (PI) – or -
  - Print Current Item Balance by Location (PL)
- 

**Remove/Deactivate HCPCS/Item from Inventory (RE)**

The **Remove/Deactivate HCPCS/Item from Inventory (RE)** option removes/deactivates inventory item(s) from Prosthetics Inventory Package. Once an item has been removed/deactivated, that item is not accessible.

**Note:** Only users with RMPRMANAGER key can access this option.

---

**Inventory Reports (RP) Menu**

The **Inventory Reports (RP) Menu** contains reports showing item balances and statistics. The first four usage reports are available for the sites and for PSAS Headquarters personnel to use. Use these reports to assess and manage your inventory.

The **Inventory Reports (RP) Menu** includes the following report options:

- Item Detail Report
  - HCPCS Summary Report
  - NPPD Group/Line Report
  - NPPD Group Summary Report
  - Print Employee Lab Issue Statistics
  - Print Current HCPCS Balance by HCPCS
  - Print Current Item Balance by Location
  - Print Order/Receive Item
  - Print Transaction History
  - Print Item Usage By Location
  - Print Stock Work Sheet
  - Reprint Barcode Label
  - Print Item Not Issued Within 30-Day
  - Print Stock On Hand Over Date Range
  - Print All Barcode in a Location
  - Print PIP/IFCAP Item Report
-

## Item Detail Report (SI)

The **Item Detail Report (SI)** is the most detailed report at the facility level. This report displays the stock on hand for a date range and sorted by item at the facility level. Since this report is in the NPPD Report format, all HCPCS in that group are shown on the report, even if there was no activity during the reporting timeframe. For example, K004-1 and K004-3 is shown, but also K004-2 is shown. HCPCS are always grouped under their respective NPPD Line and Group headings.

There are also separate summary lines for USED and NEW Total Values. At the end of the report is a Grand Total New and Used for inventory on-hand as well as items issued.

## HCPCS Summary Report (SH)

The **HCPCS Summary Report (SH)** is for both local as well as headquarters use. This report provides a quick overview of the total dollars on-hand in Inventory. It displays the stock on-hand for a specified date range, and it is sorted by HCPCS. This report provides a description field in the second column. There is a Grand Total USED and NEW for items issued as well as stock on-hand on this report.

## NPPD Group/Line Report (SG)

The **NPPD Group/Line Report (SG)** is for local use. This report displays the same information as the **Item Detail Report** but at the NPPD Line level. It displays the stock on hand for a date range and sorted by NPPD Group and NPPD Line. There is a Grand Total USED and NEW for items issued as well as stock on hand on this report.

| <b>NPPD Group Summary Report (SS)</b>              | The <b>NPPD Group Summary Report (SS)</b> is for local use. This report provides high-level summary information based on the NPPD Group selected. It is the summary of the entire Prosthetics inventory for a certain date range sorted by NPPD Group.  |
| <b>Print Current HCPCS Balance by HCPCS (PI)</b>   | <p>The <b>Print Current HCPCS Balance by HCPCS (PI)</b> is a report of the number of items available in current inventory by location for selected HCPCS. It includes other information about the items, including the following:</p> <ul style="list-style-type: none"> <li>• Source (VA or Commercial)</li> <li>• Vendor</li> <li>• Unit of issue</li> <li>• Re-order level</li> <li>• Average cost.</li> </ul> |
| <b>Print Current Item Balance by Location (PL)</b> | The <b>Print Current Item Balance by Location (PL)</b> is a report of item balances by one, more than one, or all prosthetic Locations for a site.  |
| <b>Print Transaction History (PS)</b>              | The <b>Print Transaction History (PS)</b> option to print daily Item statistics of all or particular HCPCS and Items that are in Prosthetics Inventory. This option prints the VA form 10-1210. The report shows all the statistics of a particular HCPCS Code, Item, and dollar amount for a certain date range.   |
| <b>Print Order/Receive Item (PO)</b>               | The <sup>1</sup> <b>Print Order/Receive Item (PO)</b> option prints the Open, Received Item(s), or Cancelled Items in the PIP. You will be asked for the number of days back an item was open, received, or cancelled.  |
| <b>Print Item Usage by Location (IU)</b>           | The <sup>2</sup> <b>Print Item Usage by Location (IU)</b> option provides a report of an item usage and quantity for a specified date range. This report is sorted by Location.   |

| <b>Print Stock Work Sheet (WS)</b>               | The <sup>1</sup> <b>Print Stock Work Sheet (WS)</b> option prints the inventory stock by Location of a particular station. It shows the HCPCS, Item description, date, cost, vendor, quantity, location, and a blank column for the physical count.                                |
| <b>Reprint Barcode Label (BC)</b>                | The <sup>2</sup> <b>Reprint Barcode Label (BC)</b> option allows inventory users to print barcode labels. Only HCPCS in PIP can be printed using this option.  |
| <b>Print Items Not Issued Within 30-Day (P3)</b> | The <sup>3</sup> <b>Print Items Not Issued Within 30-Day (P3)</b> report option prints Items not issued within a 30-day period. Items that have been issued within 30 days will NOT be printed on this report.   |
| <b>Print Stock on Hand Over Date Range (OD)</b>  | The <sup>4</sup> <b>Print Stock on Hand Over Date Range (OD)</b> report prints all Items in a particular Location, where the number of days on-hand is greater than the number of days in the date range selected. Sort criteria are based on Locations and new or old Items.      |
| <b>Print All Barcode in a Location (AL)</b>      | With Patch RMPR*3*61, the <sup>5</sup> <b>Print All Barcode in a Location (AL)</b> option is an option available for use in printing all the barcode labels for all items within a Location.   |
|  | <b>Note:</b> This is a helpful option to use after installing this patch into the Production (Live) system to implement this patch.  |
| <b>Print PIP/IFCAP Item Report (IP)</b>          | The <sup>6</sup> <b>Print PIP/IFCAP Item (IP)</b> report prints all PIP Items and the corresponding IFCAP Items. Prosthetics users must edit the HCPCS/Item that has a blank IFCAP Item. This report is useful for checking if the IFCAP Item is correctly linked to the PIP Item. |

# Email Notifications

## Overview

---

### Introduction

Email notifications are sent when your items have been reduced to the Re-order Level you entered for the item. If you have re-ordered items, and your PIP reflects your Re-order Number, you will still receive an email notification.

---

### Task Job (Inventory Task Balance Check)

After installation of the Prosthetic Inventory module, IRM will schedule the *Inventory Task Balance Check* to run every night.

This option will check all items in each Prosthetics Location and send a Prosthetics Inventory message if the balance is below the Re-order Level for an item.

---

### Mail Group (RMPR INVENTORY)

The RMPR INVENTORY mail group receives the *Inventory Task Balance Check* message whenever the balance for an item is below the re-order level. There must be at least one member, either the Prosthetics Chief or a designated person responsible for the Prosthetics Inventory module.

**Note:** Make sure that IRM has a list of the people who should be in this mail group.

## Add Inventory LOCATION or ITEMS (AE)

**Function description**

You must use the **Add Inventory LOCATION or ITEMS (AE)** option to populate the Prosthetics Inventory (PIP) to add a new Location or Item to inventory. (This is a one-time procedure.) You can also add a Prosthetic Location for each site where an inventory Item will be located.

You must use this option before you can issue an Item from the **Stock Issues (SI) Menu** if it has not been previously added. You will not be able to receive stock until an Item has been added. The barcode scanner equipment will not work unless the Item(s) has been added to the PIP.

**Steps**

To add a PIP Location and/or an IFCAP Item, follow these steps:

| Step | Action   |
|------|--|
| 1    | Select the <b>Site</b> (if more than one Site can be selected).  |
| 2    | Enter a <b>Prosthetics Location</b> and press <Enter>. (You can type one or two question marks <??> to display a list and select one <u>or</u> add a new one as shown on the next page.) |

**Site**

The **Site** prompt only appears if your Prosthetics Service covers multiple stations. This is a non-editable field (for display purposes only). Entering a question mark <?> will bring up a list of sites for which you will need to define the Locations. Select a site or enter the number(s) for your station.

**Enter Pros Location**

The **Enter Pros Location** prompt provides a list of Locations by typing a question mark. You can view the entire **PROS ITEM LOCATION** list to select one or add a new one if you wish.

When entering a new Location, there is a free-text field of 3 - 30 characters in length. This is a location of an item or stock being tracked for inventory. This might be a room number, warehouse, etc.

**Sample screen**

```

**Item Location Address** The **Prosthetic Item Location Address** prompt provides an entry for a more detailed description of the Prosthetics Location that you are adding to PIP.

**Select HCPCS** The **select HCPCS** prompt allows you to select a HCPCS Code from the current Prosthetic HCPCS list. Entering <??> at this prompt brings up the entire list. Select the current HCPCS associated with the item(s) you will be adding.

**Steps** To continue to add a PIP Location and/or an IFCAP Item, follow these steps:

| Step | Action   |
|------|--|
| 3    | Enter the <b>Prosthetic Item Location Address</b> , and press <Enter>.   |
| 4    | At the <b>select HCPCS</b> prompt, you can enter the HCPCS Code or type two question marks <??> and press <Enter>. <ul style="list-style-type: none"> <li>• A prompt displays asking if you want the entire 3035-Entry Prosthetics HCPCS list to be viewed with a Y/N prompt.</li> <li>• You can then select one by entering a HCPCS Code, Short Name, CPT, Synonym or Description.</li> </ul> |

**IFCAP Item** The **IFCAP Item** prompt allows you to associate or link the IFCAP Item to the local PIP Item Description you are about to add.

**2 Levels of Item Descriptions** Below are two different Item prompts with different levels of detail:

**1. IFCAP Item** – This prompt provides a description from the main list of IFCAP Items in the Prosthetic file (which cannot be changed in Prosthetics):

*Example:* Diabetic Shoe

**2. Inventory Item Description** – Local “PIP” or Inventory Item specific description (which can be changed/replaced in Prosthetics): *Example:* Diabetic Shoe – Size 8

**Steps** To continue to add a PIP Location and/or an IFCAP Item, follow these steps:

| Step | Action  |
|------|---|
| 5    | At the <b>IFCAP Item</b> prompt, you may enter a new Item and press <b>&lt;Enter&gt;</b> . This is an Item or appliance in the PSAS HCPCS list kept by a local file in PIP. |

**Inventory Item Description** The **Inventory Item Description** is a free-text field of 3 - 50 characters in length. This description for the item is used locally by your Prosthetic service. You may specify size, volume, etc. You can change the description at this prompt and replace it with a new one. For example, the HCPCS Code, A4565 may have the following PIP Item Descriptions:

- 1 - Sling, arm large
- 2 - Sling, arm small

**Note:** For each HCPCS Code, you may enter multiple IFCAP Items and PIP Item descriptions. Several IFCAP Items may be associated with one HCPCS.

## Add Inventory LOCATION or ITEMS (AE), Continued

**Source** The **Source** prompt is defined as the source for the Item you are defining. Enter either (V)A (for **used** items) or (C)ommercial (for **new** items) at this prompt. Note that new and used Items are tracked separately to maintain inventory records for each Source.

**Steps** To continue to add a PIP Location and/or an IFCAP Item, follow these steps:

| Step | Action   |
|------|--|
| 6    | Select <b>V</b> (VA) or <b>C</b> (Commercial) at the <b>source</b> prompt and press <Enter>. |
| 7    | Enter a <b>Re-order Level</b> number (optional) or exit at this prompt.                      |

**Screen sample**

```

SOURCE: C// ?? <Enter>

This is the source of an item:
'V' stands for VA or USED items and
'C' for COMMERCIAL or NEW items.

NEW and USED items are tracked separately so that separate inventory
records should be maintained for each source.

Choose from:
V          VA
C          COMMERCIAL
If the item is USED, type in 'V' for VA.
If the item is NEW, type in 'C' for COMMERCIAL.

SOURCE: C// COMMERCIAL <Enter>

RE-ORDER LEVEL: 5 <Enter>
    
```

**Re-Order Level (Optional)** The **Re-Order Level** (optional prompt) is a number that signifies when an Item should be re-ordered. The system uses this number to check against the quantity on-hand and will alert specified users through an email if the quantity on-hand is too low. Items are still accessible through PIP even if you do not enter a Re-order level for an Item.

<sup>1</sup>**You can also exit at this prompt!** The Item entry process is actually complete, even though no quantity has been assigned. This is because there may not be any Items available in stock at this point.

**Note:** If the quantity is below the Re-order level for the Item, a message is sent to alert members of the RMPR INVENTORY mail group. Contact your IRM to be entered as a member of that mail group if you need a notification.

*Continued on next page*

<sup>1</sup> Functionality change with Patch RMPR\*3\*61 to exit the entry process of an item before entering quantity.

**Invoice Quantity**

The **Invoice Quantity** prompt provides the entry of the quantity of the IFCAP Item that you are adding at a specific Location for a specific vendor. (This is not the same as the quantity on-hand for an Item.)

**Note:** To enter a receipt of an existing IFCAP Item, use the **Receive Item from Supply, Vendor or Patient (RC)** option. To update/correct the quantities on-hand for an IFCAP Item, use the **Reconcile Item Balance (UP)** option.

**Steps**

To continue to add a PIP Location and/or an IFCAP Item, follow these steps:

| Step | Action   |
|------|--|
| 8    | Enter the <b>Invoice Quantity</b> and press <b>&lt;Enter&gt;</b> .                         |
| 9    | Enter the <b>Unit Cost</b> or type a zero and press <b>&lt;Enter&gt;</b> .                 |
| 10   | The <b>Total Cost of Quantity</b> prompt displays with the total automatically calculated. |

**Sample screen**

```
INVOICE QUANTITY: ?? <Enter>

Type the item quantity you are receiving into stock. This quantity should match that on the paper record of the receipt such as an invoice or delivery note. It is not the same as the quantity on hand. To correct on hand quantities, you should use the Reconciliation option.

Please make sure you create separate receipts if you are receiving the same item from different vendors or at different costs.

INVOICE QUANTITY: 10 <Enter>
```

**Unit Cost**

The **Unit Cost** prompt is the cost of each unit being added. If you do not have the information to enter in this prompt, you can enter a Zero (0).

**Sample screen**

```
UNIT COST: ?? <Enter>

Type in the dollar cost per item.
If you would prefer to enter the total dollar value for the item quantity you have just typed in, then type in 0 here.

UNIT COST: 75 <Enter>

TOTAL COST OF QUANTITY: 750.00
```

**Total Cost of Quantity**

The **Total Cost of Quantity** prompt automatically displays the total dollar value for the item you are requesting to order. (This is the Invoice Quantity multiplied by the Unit Cost.)

## Edit Inventory Items (EI)

**Function description**

The **Edit Inventory Item (EI)** option is used to make any changes to the PIP Item description, inventory location, re-order level, invoice quantities of the Item(s), unit cost, or vendor. You can edit an Item when there are multiple Items for a HCPCS Code.

If you edit the PIP Item description, you will be prompted to associate a current stock record to the Item. The PIP Item(s) was entered through the **Receive Item from Supply, Vendor or Patient (RC)** option.

**Steps**

To edit inventory Item information, follow these steps:

| Step | Action  |
|------|---|
| 1    | Select the <b>Site</b> (if more than one site can be selected).   |
| 2    | Select the <b>HCPCS Code</b> of the PIP Item you want to edit. You can type two question marks <??> to display a list and select one.   |

**Second manager name** The **Enter user name of 2<sup>nd</sup> Manager** prompt...allows you to enter a second encrypted electronic signature of a manager, and press the **<Enter>** key.

**Confirmation** A confirmation prompt displays allowing you to cancel at this point or continue the deactivation of the Location.

## Order Item from Supply or Vendor (OI)

**Function description**

Whenever you order supplies, you should update the inventory by using the **Order Item from Supply or Vendor (OI)** option to show the quantity ordered. This function tracks purchase orders that are complete. It does not actually place an order. This option shows the items on order (from phone orders, faxed orders, etc.).

During the background job at night, if items are low (lower than the assigned Re-order level), you will receive an email notice of the stock on hand.

**Note:** You can view the Items on a report from the **Print Order/Receive Item (PO)** Report.

**Status of an order/Tracking status**

The following are the statuses when tracking an order:

- Open - The order stays open until all quantity ordered has been received.
- Received – The purchase order is complete.
- Canceled

**Steps**

To track an Item from Supply or Vendor, follow these steps:

| Step | Action  |
|------|---|
| 1    | Select the <b>site</b> (if more than one site can be selected). |

## Receive Item from Supply, Vendor or Patient (RC)

**Function descriptions** Whenever you receive supplies, you should update the inventory using the **Receive Item from Supply, Vendor or Patient (RC)** option to show the quantity received. You can receive supplies from a different supply area, from a vendor, or Items returned from a patient. Barcode scanner equipment is used with this option.

**Note:** All Items will need a HCPCS code and location before creating the barcode label. The barcode scanner will not work unless the Items are in PIP.

**Steps** To receive an Item from Supply, Vendor or Patient, follow these steps:

| Step | Action  |
|------|---|
| 1    | Select the <b>Site</b> (if more than one site can be selected).   |

## Receive Item from Supply, Vendor or Patient (RC), Continued

### <sup>1</sup>Number of Labels to print

The **Number of Labels to print** prompt displays. It is recommended that you should print the barcode labels **NOW**. This prompt assumes you want to print the number of the invoice quantity received. You can print fewer labels but not more than the default setting. The default number of labels appears according to the number you entered into the **Invoice Quantity** prompt.

The following information prints on the barcode label: HCPCS Item, the unit cost, the date when received into inventory, the local description of the item and the vendor.

**Note:** There is a backup option that allows you to print a single barcode label at a later time using the **Print Barcode Label (PB)** option. Use for backup purposes.

### Steps

To continue to receive an Item from Supply, Vendor or Patient, follow these steps:

| Step | Action  |
|------|---|
| 10   | At the <b>Number of Labels to print</b> prompt, you can press <b>&lt;Enter&gt;</b> to accept the default setting. Or type in the number (less than the default) of barcode labels you want to print for the Item selected.                    |
| 12   | At the <b>Select Barcode Printer</b> prompt, press <b>&lt;Enter&gt;</b> to accept the default setting.  |
| 13   | Press <b>&lt;Enter&gt;</b> at the <b>Do you want your output QUEUED?</b> to accept the default of <b>No</b> , and the barcode label will print automatically. <u>If you answer <b>Yes</b>, you will then enter a Start Time.</u> (See below.) |

## Transfer Stock Between Locations (TR)

**Function description**

If you transfer stock from one Location to another, you can update the inventory using the **Transfer Stock Between Locations (TR)** option. This option allows you to transfer stock from one Location to another without deactivating and re-adding PIP Items.

**Note:** To *deactivate* items in a location, use the **Deactivate Inventory Location (DE)** option. This option does not remove an Item from a Location if all quantities have been transferred.

**Steps**

To transfer an Item from a Location, follow these steps:

| Step | Action   |
|------|--|
| 1    | Select the <b>site</b> (if more than one site can be selected).  |
| 2    | The <b>Select HCPCS</b> prompt is provided to transfer the Item(s). (If there is more than one Item, a list will display for you to select one.) |

**Note:** If you enter the receiving Location and it is the same as the forwarding Location, you will see the following note:

\*\*\* Forwarding and Receiving Location is the same!!!!

## Reconcile Item Balance (UP)

**Function description**

Use the **Reconcile Item Balance (UP)** option when your reports (**Print Current Balance by Location** or **Print Current HCPCS Balance by HCPCS**) show an item balance different from the actual physical count for a Location.

This option also allows you to update other Item-specific information. **To use this option, you must own the RMPRMANAGER key.**

**Steps**

To reconcile an item balance, follow these steps:

| Step | Action  |
|------|---|
| 1    | Select the <b>site</b> (if more than one Site can be selected).                             |
| 2    | At the <b>select HCPCS</b> prompt, select the HCPCS Code that needs to be balanced/updated. |

| <b>Print Stock Worksheet (WS)</b>                | This report prints the inventory stock by Location of a particular station. It shows the HCPCS, Item description, date, cost, vendor, quantity, Location and a blank column for the physical count.  |
| <b>Reprint Barcode Label (BC)</b>                | This option allows inventory users to print barcode labels. Only HCPCS in PIP can be printed using this option.  |
| <b>Print Items Not Issued Within 30-Day (P3)</b> | The <b>Print Items Not Issued Within 30-Day (P3)</b> report option prints Items not issued within a 30-day period. Items have been issued within 30 days will NOT be printed on this report.   |
| <b>Print Stock on Hand Over Date Range (OD)</b>  | This report prints all Items in a particular Location, where the number of days on-hand is greater than the number of days in the date range selected. Sort criteria are based on Locations and new or old Items.  |
| <b>Print All Barcode in a Location (AL)</b>      | With Patch RMPR*3*61, the <b>Print All Barcode in a Location (AL)</b> option is an option available for use in printing all the barcode labels for all items within a Location. This is a helpful option to use after installing this patch into the Production (Live) system during the implementation of this patch. |
| <b>Print PIP/IFCAP Item Report (IP)</b>          | The <b>Print PIP/IFCAP Item (IP)</b> report prints all PIP Items and the corresponding IFCAP Items. Prosthetics users must edit the HCPCS/Item that has a blank IFCAP Item. This report is useful for checking if the IFCAP Item is correctly linked to the PIP Item.  |

## Reprint Barcode Label (BC)

### Report description

The <sup>1</sup>**Reprint Barcode Label (BC)** option allows inventory users to print barcode labels if you did not use the **Receive Item from Supply, Vendor or Patient (RC)** option. It will print labels for current inventory only. The HCPCS code for a stock item must exist in PIP before it can be printed on a barcode.

This option prints the following on a Barcode label:

- HCPCS Code
- HCPCS description
- Unit Cost
- Date received into inventory
- Item description (local description of the item)
- Vendor

Note that there is one line item that shows 72.3 in the **Days On-Hand** column in the report shown above. This means that the Stock On Hand is shown for 72.3 days over the date range selected of 31 calendar days (72.3 Days On-Hand + 31 calendar days).

## Print All Barcode in a Location (AL)

### Introduction

With Patch RMPR\*3\*61, the <sup>1</sup>**Print All Barcode in a Location (AL)** option is available for use in printing all the barcode labels for all Items within a Location. (This is a helpful option to use after **first** installing this patch into the Production (Live) system.)

In order to use this option, you must have an RMPRMANAGER key. Insert enough labels in the printer before using this option, since it will print labels for all Items in a given station.

## Print PIP/IFCAP Item Report (IP)

### Report description

The <sup>1</sup>**Print PIP/IFCAP Items Report (IP)** prints all PIP Items and the corresponding IFCAP Items. If this report does NOT print an IFCAP Item, and this column is blank, then Prosthetics users must edit the HCPCS/Item. When an IFCAP Item is entered, then there is a link to the PIP Item. This report is useful for checking if the IFCAP Item is correctly linked to the PIP Item.

## Prosthetic Inventory Reports (Patch RMPR\*3\*51)

### Overview

---

**Introduction** There are four Inventory Reports from Patch RMPR\*3\*51 in the **Inventory Reports** Menu. These usage reports are available for the sites and for PSAS Headquarters personnel to use.

The four types of reports and the options that display them are:

- Item Detail Report (SI)
  - HCPCS Summary Report (SH)
  - NPPD Group/Lines Report (SG)
  - NPPD Group Report (SS)
- 

**Headquarter Roll-up Data** Headquarters personnel can request all reports through a server process. They can request a roll-up for station inventory data for a certain date range through a server. The roll-up data is loaded in an Excel document and can be used for other reporting purposes.

---

**Purpose** Usage reports are developed for the site level that will show stock usage over a selected date range. Each report is sorted first by site and by a date range.

---

**USED and NEW Inventory** There are values for USED and NEW inventory shown separately on the usage reports. These values are never added together.

**Note:** If the same item (with the same HCPCS code) has both NEW and USED quantities entered against it, then the report will print NEW and USED figures on separate lines.

## Field/Column Descriptions

### Fields and columns

Below are the field and column descriptions within the inventory reports.

| Field/Column                   | Description   |  |
|--------------------------------|---|--|
| <b>Run Date</b>                | The date and time the report is run shown on the first line of a report.  |  |
| <b>Station</b>                 | The system location that you select or it may be a default. If you have only one site, this prompt is not available.  |  |
| <b>Number of Calendar Days</b> | Total number of calendar days for the date range selected will be shown on the second line of a report.   |  |
| <b>HCPCS</b>                   | HCPCS code.   |  |
| <b>PSAS/Item</b>               | Free-text description of the item from the name entered into the "Add an Item" option. This is shown only on the <b>Item Detail Report</b> .  |  |
| <b>Description</b>             | On the <b>HCPCS Summary Report</b> , the <i>Description</i> field replaces the <i>PSAS Item</i> field and provides a description of the HCPCS code.   |  |
| <b>VA (Used)</b>               | Number issued and dollar value for USED inventory.  | <b>CAUTION: These dollar values may not equal the dollar values on the 2319. (See Appendix A for a more detailed explanation.)</b><br><br><b>These are the values for the date range selected. In the examples to follow, it would be the numbers issued for September 2000.</b> |
| <b>COM (New)</b>               | Number issued and dollar value for NEW inventory.   |  |
| <b>Total Issue</b>             | Total number issued for the VA (Used) and Commercial (New) on different lines.  |  |
| <b>Days Ave Usage Rate</b>     | Average rate of use per day. This is the total issued (both USED or NEW) divided by the total calendar days for the date range selected.<br><br><b>Note:</b> Value will be expressed in decimal format if usage rate is less than one unit per day.<br><br><b>Example:</b> If an item was issued ten times during a 20 day period, the average usage rate over the period would be 0.5. |  |
| <b>Stock On-Hand</b>           | Number of USED and number of NEW stock on-hand items remaining in inventory.<br><br><b>Note:</b> These quantities refer to the date the report was run and not necessarily the date range entered.  |  |

## Field/Column Descriptions, Continued

### Fields and columns (continued)

Below are the descriptions of the each of the columns and fields within the usage reports.

| Field/Column                      | Description  |
|-----------------------------------|--|
| <b>Days On-Hand</b>               | <p>Number of days of quantity on-hand remaining in inventory. This is the Total Stock on Hand divided by the Days Average Usage Rate.</p> <p><b>Example:</b> To refer to the previous example where 10 items were issued during a 20-day period, if we had 10 items left in the inventory, the Days On Hand Value would be 20. The quantity on hand refers to the date the report was run and not necessarily the date range entered.</p> <p><b>Note:</b> If you see &gt;nn, where nn equals the number of calendar days, then it means no items were issued during those calendar days. If you see &gt;999, this means that the inventory on hand exceeds 999 days.</p> |
| <b>Total Dollar Value On-Hand</b> | <p>Total value of USED and total value of NEW on-hand.</p> <p><b>Note:</b> This is not the total of the average cost. This is the total cost to purchase the items on hand.</p>  |

### Grand totals

At the bottom of the reports, the following grand totals are shown:

| Field/Column                                   | Description                                  |
|--|--|
| <b>Grand Total Dollar Value Issued (Used)</b>  | Total dollar value of USED inventory issued. |
| <b>Grand Total Dollar Value Issued (New)</b>   | Total dollar value of NEW inventory issued.  |
| <b>Grand Total Dollar Value on Hand (Used)</b> | Total cost of USED stock on hand.            |
| <b>Grand Total Dollar Value on Hand (New)</b>  | Total cost of NEW stock on hand.             |

## Viewing/Printing Reports

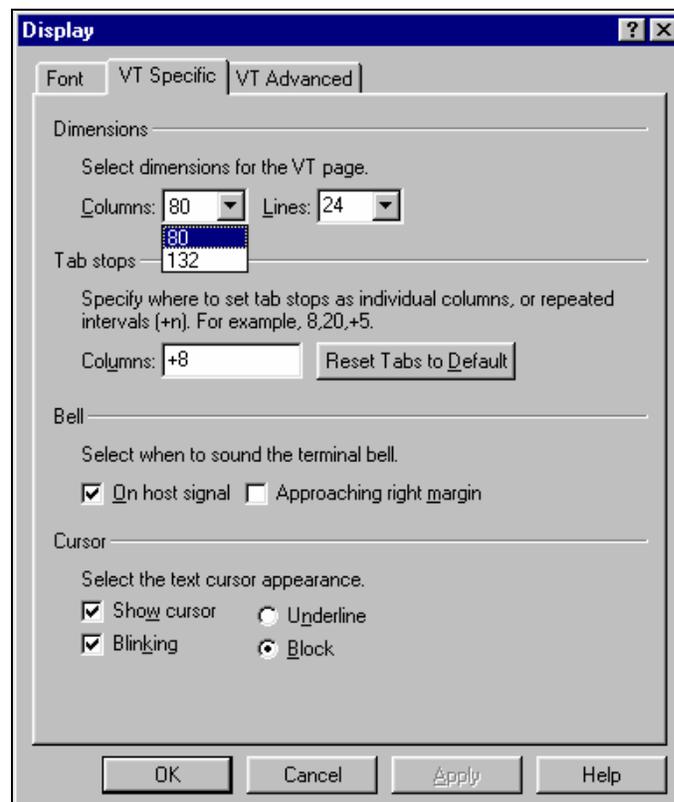

### Column Size

Contact your IRM department to change the column size from 80 to 132-column width size to print the Inventory Reports and view them on your screen.

**See instructions below if** you use a terminal emulation software on a PC to view a report on your screen or print it out. You must change the column size that is viewable from 80 characters wide to 132 characters. Otherwise, you will **not** be able to view the entire contents of a report.

| Step | Action  |
|------|---|
| 1    | Click the <b>Options</b> Menu.  |
| 2    | Click the <b>Display</b> option. The <b>Display</b> dialog box displays as shown below. Click the <b>VT Specific</b> tab. |
| 3    | Click the down arrow in the <b>Columns</b> field and select 132.  |
| 4    | Click the <b>Ok</b> button.   |

### Display Option

## Item Detail Report (SI)

### Overview

#### Introduction

The **Item Detail Report** option provides a detailed report that displays the stock on hand sorted by HCPCS/Item at the facility level. (This is the report that provides the greatest amount of detail vs. the **HCPCS Summary Report** that only provides high-level summary information.) The following are the sort criteria options:

- All HCPCS (default setting)
- All HCPCS for an NPPD Group
- All HCPCS for an NPPD Line (or related HCPCS)
- Select Individual HCPCS (more than one HCPCS can be selected)

**Note:** Each option above has the same report format (i.e., HCPCS always grouped under respective NPPD Line and Group headings.)

#### Steps

To select the **Item Detail Report**, follow these steps:

| Step | Action  |
|------|---|
| 1    | Type <b>SI</b> for the <b>Item Detail Report</b> option, and press <Enter>.     |
| 2    | At the <b>Site</b> prompt, press <Enter> to select the default site entry.      |
| 3    | At the <b>Beginning Date</b> prompt, type the beginning date of the date range. |
| 4    | At the <b>Ending Date</b> prompt, type the end date, and press <Enter>.         |
| 5    | The four options to view or print the <b>Item Detail Report</b> displays.       |

## Item Detail Report – Choosing “All HCPCS”

### Report description

You can select to view or print the **Item Detail Report** using the **All HCPCS**. This is the default setting, and you can press <Enter> instead of typing **A** and pressing <Enter>.

All HCPCS/Item in a group will be shown on the report even if there was no activity during the reporting date range.

### Steps

To select the **All HCPCS** option for the **Item Detail Report**, follow these steps:

| Step | Action   |
|------|--|
| 1    | At the <b>Choose HCPCS Selection</b> prompt, type <b>A</b> for the <b>All HCPCS</b> option, and press <Enter>.                                     |
| 2    | At the <b>Device: Home//</b> prompt, press <Enter>   |
| 3    | To view or print the report, type <b>132</b> at the <b>Right Margin: 80//</b> prompt to extend the margins for the report to display and/or print. |
| 4    | Then press <Enter>.  |

### Item Detail Report Options

Select one of the following:

```

A      ALL HCPCS
G      ALL HCPCS for NPPD group

## Item Detail Report – Choosing “All HCPCS for NPPD Line”

### Report description

You can select to view or print the **Item Detail Report** using the **All HCPCS for NPPD Line** criteria.

If you select the **All HCPCS for NPPD Line** criteria, a list of NPPD Groups displays. Then the NPPD Lines within the NPPD Group display unless multiple NPPD Groups were selected. You will be able to select one NPPD Line or multiple NPPD Lines for one NPPD Group.

### Steps

To view or print the **Item Detail Report** using the **All HCPCS for an NPPD Line** criteria, follow these steps:

| Step | Action   |
|------|--|
| 1    | At the <b>Choose HCPCS Selection</b> prompt, type <b>L</b> for the <b>All HCPCS for NPPD Line</b> option, and press <b>&lt;Enter&gt;</b> .   |
| 2    | A list of NPPD Groups displays. Type a number(s) of the NPPD Group you want to select, and press <b>&lt;Enter&gt;</b> .<br><br><b>Note:</b> For multiple NPPD Groups, you can enter a list or range of numbers (e.g., 1,3,5 or 2-4,8). |

## HPCPS Summary Report (SH)

### Overview

#### Report description

The **HPCPS Summary Report** provides a quick overview of the total dollars on hand in Inventory. This report displays the stock on hand for a specified date range, and it is sorted by HCPCS. The HCPCS options for you to select when viewing or printing a report includes the following:

- All HCPCS (default setting)
- All HCPCS for an NPPD Group
- All HCPCS for an NPPD Line (or related HCPCS)
- Select Individual HCPCS (more than one HCPCS can be selected).

#### Steps

To select the **HPCPS Summary Report**, follow these steps:

| Step | Action   |
|------|--|
| 1    | Type <b>SH</b> for the <b>HPCPS Summary Report</b> option from the <b>Inventory Report Menu</b> , and press <Enter>. |
| 2    | At the <b>site</b> prompt, press <Enter> to select the default site entry.   |
| 3    | At the <b>Beginning Date</b> prompt, type the beginning date of the date range, and press <Enter>.                   |
| 4    | At the <b>Ending Date</b> prompt, type the end date, and press <Enter>.  |
| 5    | The options for the <b>HPCPS Summary Report</b> displays.  |

## HCPCS Summary Report – Choosing “All HCPCS for NPPD Line”

### Report description

You can select to view or print the **HCPCS Summary Report** using the **All HCPCS for NPPD Line** criteria.

If you select the **All HCPCS for NPPD Line** criteria, you will first select an NPPD Group, and then select a Line(s) within the Group unless multiple NPPD Groups were selected. You will be able to select one NPPD Line or multiple NPPD Lines for one NPPD Group.

### Steps

To view or print the **HCPCS Summary Report** for **All HCPCS for an NPPD Line**, follow these steps:

| Step | Action  |
|------|---|
| 1    | At the <b>Choose HCPCS Selection</b> prompt, type <b>L</b> for the <b>All HCPCS for NPPD Line</b> option, and press <b>&lt;Enter&gt;</b> .  |
| 2    | A list of NPPD Groups displays. Type a number(s) of the NPPD Group you want to select, and press <b>&lt;Enter&gt;</b> .<br><br><b>Note:</b> For <u>multiple</u> NPPD Groups, you can enter a list or range of numbers (e.g., 1,3,5 or 2-4,8). |

### All HCPCS for NPPD Line

## HPCPS Summary Report – Choosing “Select Individual HPCPS”, Continued

### Individual HPCPS

The **HPCPS Summary Report** works exactly like the **Item Detail Report** with the only exception that the display will report usage by HPCPS instead of an Item.

| Step | Action  |
|------|---|
| 1    | At the <b>Choose HPCPS Selection</b> option prompt, type <b>S</b> for the <b>Select Individual HPCPS</b> criteria option, and press <Enter>.                                |
| 2    | At the <b>Select HPCPS 1:</b> prompt, enter two question marks to display a list of HPCPS and select one if you do not know the exact HPCPS.                                |
| 3    | More HPCPS prompts will display until you press <Enter> to bypass it.   |
| 4    | At the <b>Device: Home//</b> prompt, press <Enter>.   |
| 5    | To view or print the report, type “; <b>132;</b> ” at the <b>Right Margin: 80//</b> prompt to extend the margins for the report to display and/or print, and press <Enter>. |

## NPPD Group/Line Report (SG)

### Overview

#### Introduction

The **NPPD Group/Line Report** option will display the same information as the **Item Detail Report** and the **HCPCS Summary Report** options but at the NPPD Line level. It displays the stock on hand for a date range and sorted by NPPD Group and NPPD Line.

You will select a site and a date range. You will be able to select one or multiple NPPD Groups. Then an NPPD Line selection must be made **ONLY** if one NPPD Group is selected.

A couple of conditions exist depending on which prompt you choose as follows:

- If you choose one NPPD Group, you will be able to select multiple NPPD Lines.
- If you choose more than one NPPD Group, an NPPD Line cannot be selected.

#### Steps

To select the **NPPD Group/Line Report**, follow these steps:

| Step | Action   |
|------|--|
| 1    | Type <b>SG</b> for the <b>NPPD Group/Line Report</b> , and press <Enter>.                          |
| 2    | At the <b>site</b> prompt, press <Enter> to select the default site entry.                         |
| 3    | At the <b>Beginning Date</b> prompt, type the beginning date of the date range, and press <Enter>. |
| 4    | At the <b>Ending Date</b> prompt, type the end date, and press <Enter>.                            |
| 5    | The <b>NPPD Groups</b> display.  |

## Other Useful Inventory Reports

### Overview

---

#### Introduction

There are other useful Inventory Reports including the following:

- Print Transaction History (PS)
  - Print Current Item Balance by Location (PL)
  - Print Current HCPCS Balance by HCPCS (PI)
- 

#### Print Transaction History (PS)

This option is used to **Print Transaction History (PS)** covering a selected time period. It prints a record of stock movement or transaction history (number issued, ordered, received) for all or selected HCPCS and items that are in Prosthetics Inventory over a specified date range.

The report includes patients receiving the items, notes on updates to the HCPCS Items, returns, cancellations, deactivations, etc., plus dollar amounts for HCPCS/Items issued.

---

#### Print Current Item Balance by Location (PL)

The **Print Current Item Balance by Location (PL)** option is used to print the balances for available items by location. This report is also helpful when conducting a physical count and provides the Unit Cost as well as the quantity of an Item in each Location.

---

#### Print Current HCPCS Balance by HCPCS (PI)

The **Print Current HCPCS Balance by HCPCS (PI)** option prints a report of the number of items available in each location for selected HCPCS. It includes other information about the items, including source (VA or Commercial), vendor, and unit of issue, re-order level and average cost. You may select individual HCPCS or all HCPCS.

## Print Current Item Balance by Location (PL)

**Report description** The <sup>1</sup>**Print Current Item Balance by Location (PL)** option is used to print the balances for available items by location. The format has been revised with Patch RMPR\*3\*61, and zero balances are now shown on this report.

**Site** This prompt only appears if your Prosthetics Service covers multiple stations. Enter the site and press <Enter>.

**Enter "ALL"** Enter 'ALL' for all Locations or 'RETURN' to select individual Locations: If you enter ALL at this prompt, every location in your Prosthetics Inventory will be covered by the report. Press the <Enter> key to select one or more specific locations.

**Date Received column** To help the users manage their inventory, this report was modified to print the **Date Received** column. Users can reference this report with the information below the barcode to double check if a particular barcode has any inventory on stock.

**Device** Press the <Enter> key to bring the report to your screen or enter the name of a printer to obtain a hard copy report.
